SUNBEAMS

By WALTER M. BARRETT

Like many other holidays celebrated during the year, the true purpose of Thanksgiving has been virtually forgotten. It is right and fitting that the day should be set aside for feasting and family gatherings and rejoicing in the material things which have been bestowed upon us, but the deeper meaning is too often overlooked. It is primarily a day of thanksgiving, as the name implies, and it would be well if we all paused today and gave thanks to Him who has made the abundant life possible. May this Thanksgiving be the best you ever had.

Pumpkin pie is almost as much a part of Thanksgiving as the story of the Pilgrims. But it wasn't on the Pilgrim menu. According to research experts with the World Book Encyclopedia, the early colonists probably didn't know what to do with the strange vegetable.

One ingredient is essential to brew exceptional beer...

NORTH TAHOE

By JUDGE HARRY CHARRISON

Weather

Saturday morning at 10 a.m. the temperature was 50 degrees. The sun has been shining brilliantly and the roads are dry and promise to stay that way.

Christmas Party

The Lions and Felions are having their Christmas party at the North Tahoe Utility plant on the gun club road December 9th.

On Trip

Red and Mary Lou Waddell and son, Art, left Kings Beach for southern California to spend Thanksgiving with relatives.

From Auburn

Frank Paoli and wife and Frank and Dick Tuttle were up from Auburn last week. They are attorneys and both have offices at Kings Beach. They attended the big meeting at Crystal Bay.

Poor Puppy

Little Patricia and Mike Sheridan are broken hearted that their puppy was run over by a car right in front of them. They both claimed they would have no Thanksgiving, but we'll bet they have a new puppy soon.

Hosts At Dinner

John Rayburn and Ray Plunkett were hosts at a delicious dinner at Crystal Bay Club last Tuesday.

New Subscribers

The Verl Draneys are the latest new subscribers to the Sierra Sun.

Need Permit

The deadline is near for Christmas trees but be sure and get permits to transport them.

Big Day

Friday, the 21st was a big day for all of us at North Tahoe, with the Lake Tahoe Area Council holding its first meeting at the Nevada Lodge, with small and large businesses and representatives from all branches of our county, towns and states near and bordering the lake attending. Everyone seemed enthusiastic about the future of the lake and the area in general. Nearly 500 were planned for and I'm sure that many attended. The cocktail party was through the courtesy of the club and was a wonderful opportunity for all to get acquainted and meet old business friends. During the meeting I am sure everyone gained a full understanding of what the council stands for and what it planned to do for the area through the cooperation and support of all.

Twins Arrive

Mr. and Mrs. Roy MacMillan, Jr., are the happy parents of twin boys who arrived November 23, at Altadena. The little newcomers have an older brother, Gregory Sorensen and their mother is the former Mrs. Susanne Sorensen of Tahoe Vista.

RECLAIMING FOREST PROJECT IS STARTED

The first step of a very important long-range program on the Tahoe National Forest in reclaiming brush fields for the production of saw-timber was started this fall and will continue indefinitely, according to Hal Turner, timber management staff officer of the Tahoe National Forest at Nevada City.

The Tahoe National Forest is the site of many old brushfields which are not producing commercial timber as they are capable of doing. The job of converting these into productive timbered lands is costly but will pay handsome dividends to the economy of California over a long period of time.

According to Turner, the initial clearing projects are now completed; one being located on Highway 20 at Omega Hill and the other near the Blue Canyon Airport off of Highway 40.

The Omega Hill area is familiar to all travelers of Highway 20 and was at one time the site of the Nevada City Ski Club.

Foresters predict a successful plantation in that area.

The old Blue Canyon brushfield is also the result of repeated burns and small plantations in that area have well proven that it is also economical to clear the brush in planting strips and to place nursery seedlings thereon.

Under Turner's direction two years ago, a wide survey was made of all the brushfields of the Tahoe National Forest and they were classified by soil types, general growing conditions, and other factors and a plan was laid out which, over a period of time, will take these non-productive areas and make good timber-producing lands for the use of future generations.

The 1957-58 pilot clearings and tree plantings made in the Sierraville-Truckee area have proven successful, but since soil types and growing conditions are not as good as on lands west of the Sierra crest they will not receive extensive clearing and planting until after about 1962.

New Management

The Donner Ski Ranch will open this year with the onset of winter under the management of Norman Sayler who has lived in the area for the past seven years. The construction of a new 11,000-foot rope tow has already made sking possible for a few early skiers. Bull dozing has been done to make sking possible with only a foot of snow. The T bar lift which was in operation last year, has been sold to the Soda Springs Ski Corporation, leaving the rope tow and chair lift to carry the skiers this winter. Sayler, himself a class A racer, expects to organize a junior racing program.

Bissons Move

Slim and Elsa Bisson have moved into the Beyer home in Soda Springs, leaving their own home there vacant. The Beyers made their move to Menlo Park on Tuesday and will occupy an apartment.

Summit Sit

Mrs. Lydanne of Soda Springs was hostess to the Summit Sit on Thursday evening. Everyone enjoyed a pleasant evening of conversation and handiwork. Those present were Barbara Zorich, Betty Board, Toddy Simmons, Eleanor Johanson and Donna Power. Mrs. Zorich invited the group to her home for the December 3 meeting.

Happy Birthday

Friends of Jim Bell wished him a happy 22nd birthday on Thursday evening at the Simmons home in Soda Springs. Bell is an employe of the Central Sierra Snow Laboratory.

Pla-Vada Woodlands

The Pla-Vada Woodlands real estate development to date has sold 14 of its 111 lots. One house has been completed and another is now under construction. Dr. and Mrs. Tom Reich of Piedmont, a family known in the area for their sking, have recently purchased a winter home site.

Convalescent Returns

Mrs. Ilsa Bisson has returned to her home in Soda Springs from San Francisco where she underwent medical attention.

Happy Thanksgiving to all my readers.

UTILITY BOARD ON SUMMIT HOLDS MEET

SODA SPRINGS — The Donner Summit Public Utility District Board of Directors recently held its regular monthly meeting at the Donner Summit Lodge. The three board members, Max Williamson, Harry Pratt, and Harry Beyer all of Soda Springs were present. Also in attendance was Paul Chamberlain, attorney for the district, and Ray Carlyle, auditor for the district, and Mrs. Marie Strickland, board secretary. Fourteen interested residents of the area were present for the discussions.

It was suggested by R. Carlyle and accepted as policy by the board that the bills submitted to the district for payment be itemized by the secretary and passed on individually by the board of directors.

Sometime in the distant future the board wishes to raise the land taxes paid by the district land owners. However this measure will not be acted on for another year.

The discussion of the easement in relation to the pipe line crossing the McCarty property concluded that the district would accept the three-foot easement granted by the land owners.

The resignation from his post as board member by Harry Beyer was regretfully accepted by President Harry Pratt and Max Williamson. Beyer finds it necessary to resign because of his plans to move from the area. The vacancy will be filled by an appointee of the board, who wil hold office until May of 1960 when an election will be held.

A committee of Edvie Aro, Elmo Morianio and John Johansen was appointed to assist the board members in rewriting ordinance number nine. This will more clearly define a water user into a class established by the use of which he puts the water he purchases. This then will make the water billing more fair to the user.

The board of directors will meet again December 9 at the Donner Summit Lodge at 8 p.m.

The turkey has been losing weight since 1930, according to research experts with the World Book Encyclopedia. In the past, the big size of the bird has limited it to such family feasts as Thanksgiving and Christmas. But turkey raisers now are growing smaller birds.

Friday evening at 8 p.m. in the Sky Room of the Mapes Hotel, will be the season opener for skiers in Reno, Lake Tahoe and High Sierra region. This event, sponsored by the Reno Ski Club, is an annual winter kick-off, provides not only a delightful opportunity for a friendly get-together but also serves as a means of raising funds to support Reno's junior ski program. It will, in addition this year, provide a portion of the money necessary to send Dick Dorworth and Harry Ericson to the F.W.S.A. Olympic tryouts.

Heard from Dave McCoy of Mammoth Mountain today. He and his crew have really been busy all summer and as a result have achieved real progress. Their parking area has been increased from a capacity of 475 to 1200.

An entire third floor has been added to the Chalet which includes a glass front dining room for 300. Trails have been cleared on the number two chair lift (1) to afford some excellent runs that are protected from cross winds by the remaining timber.

On the other extremity of our Sierra developments is the Mount Shasta Ski Bowl. This development on the north end of California's winter sports playground will undoubtedly some day be as big and popular as the south end's Mammoth. Both of them take off for the heavens as far as elevations go—around 12,000 feet. If you go much higher, oxygen might come in handy, but packing your own air around can be a chore and could certainly be classified as excess baggage. Under ideal conditions, Mount Shasta, upon completion of their second lift, will afford a seven-mile downhill run with a vertical drop of over 7000 feet—that should satisfy the average skier, don't you think so? Chappy Wentworth, who was one of California's outstanding competitors back in the late thirties and early forties is one of the driving forces behind this new development.

I noticed by the Donner Summit News that we were planning on moving from Soda to the Donner Lake area. Also, that we would rent our house at Soda. Far be it from any of us to make that bit of information incorrect. I remember writing several articles pertaining to events to come and never have them develop. The first item, I'm happy to say, has turned out to be correct. We've been most fortunate in locating a very nice lake front home for the next few months. If anyone would care to know where it is, it's directly across the street from the Tamarack Ski Club, known as Pine Lawn. It's big distinguishing feature is the large grape stake enclosed yard. We are very undecided about renting our house at Soda, but may, just to keep the item correct.

A sincere effort will be made to keep you informed of all of the developments and plans of all of the major ski areas. I do get reports from several of the areas each week. So, if it seems that I'm being partial, let me assure you that is not so—some areas simply make more information available that others.

STRENGTH FOR THESE DAYS from The Bible

Pilate saith unto them, What shall I do then with Jesus which is called Christ? —(St. Matthew 27, 22.)

This question was asked by a pagan judge of a riotous mob nearly two thousand years ago, but it is a question of prime importance today. Each of us should ask himself daily, What shall I do with Jesus which is called Christ? The destiny of the world may depend on our answer.

Welsh is a former educator and has a long and active career in the field of missionary work. His speciality is youth work and Sunday school work. He was in charge of Camp Noel Porter last summer. COUNCIL MEET

Continued from Page 1

that is left for them to use," he warned.

Marsh compared his bay area organization with the new council, and told the group of the success it is possible to achieve through cooperative action. He said the leaders at the meeting should be sure all people concerned with the lake region are invited to participate in the new council's program.

It was emphasized by Marsh and other speakers that the council is not a chamber of commerce, and that it is not designed to take the place of any existing organization in the two-state, five-couny area.

"It's purpose should be to help the agencies and individuals responsible for Tahoe's development to do their jobs in the best way to insure greatest benefits for the future," Marsh stressed.

Fred Shultz of Tahoe Vista, the council executive committee chairman, said one of the principal aims was to guarantee that people who come to Lake Tahoe will not be disappointed with anything they find.

Chairman of the evening meeting held at Nevada Lodge, was John Joseph Patrick Aloysious Murphy, manager of a radio station at Tahoe Valley.

Joseph F. McDonald of Reno, who is president of the Nevada-California Lake Tahoe Association, pledged $10,000 to finance organization of the new council. His association is sponsored by the Max C. Fleischmann Foundation of Nevada for the purpose of promoting the orderly development of Lake Tahoe region.

He said the council should serve as a clearing house for information and that it would make possible early solutions to problems that are disturbing residents, businessmen and government agencies.

Dr. Vernon Wall, Al Tahoe, listed the objective of the council and described some of the projects it will undertake. Among these are: an area wide master plan, a year-round highway around the west side of the lake, improved small boat facilities and much needed attention to the critical water and sewage disposal problems.

Schultz closed the meeting by urging support and participation in the council by all people who are interested in the present and future of Tahoe.

WILEY JONES TELLS OF POLIO PROGRAM

TAHOE CITY—Thirty-two members of Tahoe City Rotary Club and two visiting Rotarians who attended the November 18 dinner meeting at Tahoe Inn, heard Wiley Jones of the Brokway Rotary Club plead for more contributions to the Polio Foundation and they viewed a half hour of movie film that showed the various stages of hospital treatment which, if not a cure, gives better use of the affected limbs of children and, in some cases, adults.

Jones, who is chairman of the North Tahoe area of Washoe County, Nevada, told the Rotarians of a new plan of the Polio Foundation, designed to produce more scientists for the study of the origin of the virus that caused crippling of the younger people and the birth deformities. He said the foundation will give scholarships in schools through the United States and these boys and girls will specialize in a special field of science that may some day bring an end to the crippling effects of the various viruses. Basil Kehoe ran the movie film on the club's projector.

The happy birthday aong was sung for members, Don French and Harold Farr whose birthdays came during the past week. Each received a miniature cake with one lighted candle valued at $10 each. Martin Spitsen presided.

CITIZENS COMMITTEE STUDIES SCHOOL WORK

The newly formed Citizens Committee for re-evaluation of the high school curriculum met for the second time the evening of November 19th at the Tahoe-Truckee High School.

The study of mathematics at both the high school and elementary level was discussed and to help the commitee members gain a better understanding of the problems of the high school math teacher, three members of the Tahoe-Truckee mathematics faculty were invited to attend the symposium and take part in the discussion. These were Norman Dewhurst, Calvin Farley, and Carl Lade.

Mrs. Hilda Hintz reported on the committee of curriculum evaluation meeting which she attended during the school board convention in San Diego last month.

The next meeting of the committee will be held December 4, or, in case of bad weather, December 10.
